We live in an age where the "attention function" in the brain has been badly damaged by TV and computers -- up to 90 percent of the public under age 35 suffers from attention-deficit disorder! This book offers the

most direct, non-pharmaceutical means of healing attention dysfunction. The methods presented here are capable of restoring attention to a fully functional and powerful tool for success in life and relationships. This is also an age when humanity has lost its connection with conscience. When humanity has poisoned the Earth's atmosphere, water, air and soil, when cancer is in epidemic proportions and is mainly an environmental illness, the author asks: What is the root cause? And he boldly answers: Failure to develop conscience! Self-observation, he asserts, is the most ancient, scientific, and proven means to develop this crucial inner guide to awakening and a moral life. This book is for the lay-reader, both the beginner and the advanced student of self observation. No other book on the market examines this practice in such detail. There are hundreds of books on self-help and meditation, but almost none on self-study via self observation, and none with the depth of analysis, wealth of explication, and

richness of experience which this book offers. Includes Part 1, Number 2: Books and Pamphlets, Including Serials and Contributions to Periodicals July - December) The type test inside will tell you about the choices you've made and the direction you're taking—according to C. G. Jung's theory of psychological types. For Jung, knowing your type was essential to understanding yourself: a way to measure personal growth and change. But his ideas have been applied largely in the areas of career and marital counseling, so type has come to seem predictive: a way to determine your job skills and social abilities. This book reclaims type as a way to talk about people's inner potential and the choices they make in order to honor it. Using everyday examples from popular culture—films, "Star Trek," soap operas, comic strips—it describes the sixteen basic ways people come to terms with their gifts and values. In this book you will find tools to understand:

- How your personality takes shape
- How your type reflects

not only your current priorities, but your hidden potential • How unlived possibilities are trying to get your attention • How relationships at home and at work can help you to tap your unrealized gifts Whether you're trying to figure out who you are and what you need to do in life, or recognizing that deeper meaning lies beyond what you've already accomplished, this book will help you to become aware of your greatest strengths, your opportunities to live them out, and your ability to make the most of your unique potential. A few bigger books are out there but this one is not puffed out with clutter and other information you already knew. With years of experience in the IT industry, Joe knows a lot about the Internet too so the content here is better than web-based searches. The Small Business

Owner's Manual is great for those starting a business, operators of existing enterprises, or as a gift. How do you fix your troubled adolescent? After years of working as an in-home therapist and probation officer, author William Glover grew frustrated with the conventional wisdom that said medication and/or therapy offered the only hope for angry, defiant, unmotivated, ADHD, ADD, oppositional, defiant, drug involved, juvenile court involved, and behaviorally handicapped kids. Based on his work with adolescents and their parents, he became convinced that the solution for the majority of troubled kids resided not with the professionals, but with the parents of these children. With this as a starting point, Glover began developing "The Adolescent Owner's Manual," a unique and effective resource designed to provide parents with the practical, common-sense tools and skills essential to parenting troubled adolescents.
